NEW and CHEERFUL REGISTER STOVE.

In the construction of the BURTON REGISTER STOVE, it is the first aim of the inventor, WILLIAM S. BURTON to avail himself of the most valued of modern improvements in the art of heating, and, secondly, so to modify and alter the receptacle for the coals as at once to obtain the simplest and most perfect combustion: after a long series of experiments he has, by the substitution of a reversed form of shell for the present plummy and ill adapted bars, succeeded in producing a fire which, for soft and brilliant light, as well as purity and quantity of heat, is far beyond his most sanguine expectations while for cleanliness and cheerfulness it is utterly unapproachable. Price from 50s. to 12l. To be seen in use daily in his show-rooms, where also are to be seen

250 STOVES and 325 FENDERS (exclusive of

many others) all differing in pattern, forming the largest assortment ever collected together. They are marked in plain figures, and at prices proportionate with those that have tended to make his establishment the most distinguished in this country. Bright stoves, with bronzed ornaments and two sets of bars, 2l. 12s. to 5l. 10s.; ditto with ormolu ornaments and two sets of bars, 4l. 10s. to 12l. 12s.; bronzed fenders complete, with standards from 7s. to 3l.; steel fenders, from 3l. 12s. to 6l.; ditto with rich ormolu ornaments, from 2l. 12s. to 7l. 7s.; fire-irons, from 1s. 9d. the set to 3l. 3s. Strivector and all other patent stoves, with radiating hearth-plates; and kitchen ranges, which he is enabled to sell at those very reduced charges—

First—From the frequency and extent of his purchases; and

Secondly—From the purchases being made exclusively for cash.

WILLIAM S. BURTON has TEN LARGE SHOW ROOMS (all on one floor), exclusive of the sheds, devoted solely to the show of GENERAL FURNISHING IRONMONGERY (including Cutlery, Nickel Silver, Plated, and Japanned Wares, Iron and Brass Bedsteads), so arranged and classified that purchasers may easily and at once make their selections.
